# Breakdown & Timeline

## Breakdown

In this transformative home remodel, the architect will artfully reimagine the existing four-bedroom, single-bathroom layout, crafting a living space that marries modern comfort with refined elegance. The current design, though generous in sleeping quarters, offers but a single bath—a limitation that will be thoughtfully addressed.

The plan includes:

- **Converting one of the existing bedrooms** to create additional space for the new layout.
- **Adding a second bathroom**, thoughtfully designed to enhance both functionality and luxury.
- **Introducing a tub in a cleverly designed closet space**, an unexpected yet delightful feature that exudes charm and whimsy.

Upon completion, the residence will stand transformed:

- **Three well-appointed bedrooms**
- **Two thoughtfully designed bathrooms**
- **A harmonious blend of style, comfort, and efficiency**, all guided by the architect's vision of modern living.

- Schematic Design: 3–4 weeks
